REASONS FOR ALLOWANCE

1. The claims 1, 3-8, 11-17 and 20 are allowable over the prior art of record for at least the reason that the prior art fails to teach or suggest a structure as in claim 1, comprising a wherein on a side facing the switchgear cabinet, the partial receiving chambers are closed by a cover, the cover forms the air inlet and the at least one venting opening, and a sealing element arranged on an outside of the cover between the air inlet and the venting opening prevents a short circuit of the air. The aforementioned limitations in combination with all remaining limitations of the respective claims are believed to render said independent claims 1 and all claims dependent therefrom patentable over art of record.

2. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

3. None of the cited references, either taken alone or in combination is believed to render the present invention unpatentable as claimed. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Robert J. Hoffberg whose telephone number is (571) 272-2761. The examiner can normally be reached on 8:00 AM - 5:00 PM Mon - Thurs.

Conclusion

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Koltuniak et al. (US 3,396,780) disclose a switchgear cabinet with

Art Unit: 2835

a lateral surface having an air inlet and a vent opening, and a cooling device having a heat exchanger, wherein the cooling device is installed in an area of a lateral surface of the switchgear cabinet adjacent to the lateral surface, but fail to disclose a receiving chamber divided into two more partial receiving chambers and a sealing element.

Kozlowski et al. (US 5,747,734) disclose a modular switchgear cabinet, but lacks the claimed structure of the invention.

5. If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Jayprakash N. Gandhi can be reached on (571) 272-3740. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
